

DRIVE 1.0

IRRESISTIBLE, ATTRACTIVE COMFORT

This shower has the Drive! A gentle push is all it takes to swing the sliding doors in and they can be cleaned easily and with a minimum of time. Particularly smart: The whisper rail allows the doors to slide almost silently. What's more, the rollers in the diagonal bracket are integrated into the profile so that they are invisible to the observer. Special features such as PALM magnet facilitate handling and ensure a unique cleaning comfort.

- Standard at the highest level
- 25 year warranty
- spare part post-purchase warranty up to 30 years
- easy installation
- Fast delivery service: **Selected products can be delivered within 72 hours**

6-part corner entry with side panel

4-part round shower w. side p.

WALL PROFILE:

VARIO 15 mm adjustment range

SPECIAL FEATURE:

PALM.magnet - Patented magnetic rail

Magnetic rail for a time-saving and easy cleaning: A gentle push is all that is needed to swing in the sliding doors. Now even hard-to-reach places can be cleaned easily and within a minimum of time.

FLOOR SOLUTION:

Floor profile - perfect splash guard

Flush with the floor - barrier-free entry

Optionally, a 4 mm high bottom rail can be attached (is included in the scope of delivery). This ensures that most of the water stays in the shower.

PALME First Glass Shower Comfort.

NO SPECIAL HANDLES POSSIBLE,
ALL DESIGNS ARE EQUIPPED WITH A HANDLE STRIP

ACCESSORIES:

Towel holder in glass
for fixed parts and side panels

Glass shelf

Tip from the designer:
For a perfect frameless design a flush mounting of the PRD-profile in the wall is possible. To that the profile has to be installed before the tiling work.
